

# CataStak-GT™ SCR System for Low NOx Gas Turbine Solutions

## Economical Solution for Total Compliance

NO<sub>x</sub> Reductions up to 95%  
 Proven Technology that has Never Failed Third Party  
 Field Source Testing

## Proven Performance Guaranteed

3-year Catalyst Guarantee  
 Over 60 Successful CataStak Installations

## Installation Simplicity

No Operator Intervention Required (Auto Start/Stop)  
 Patent Pending Ammonia Flow Control Technology

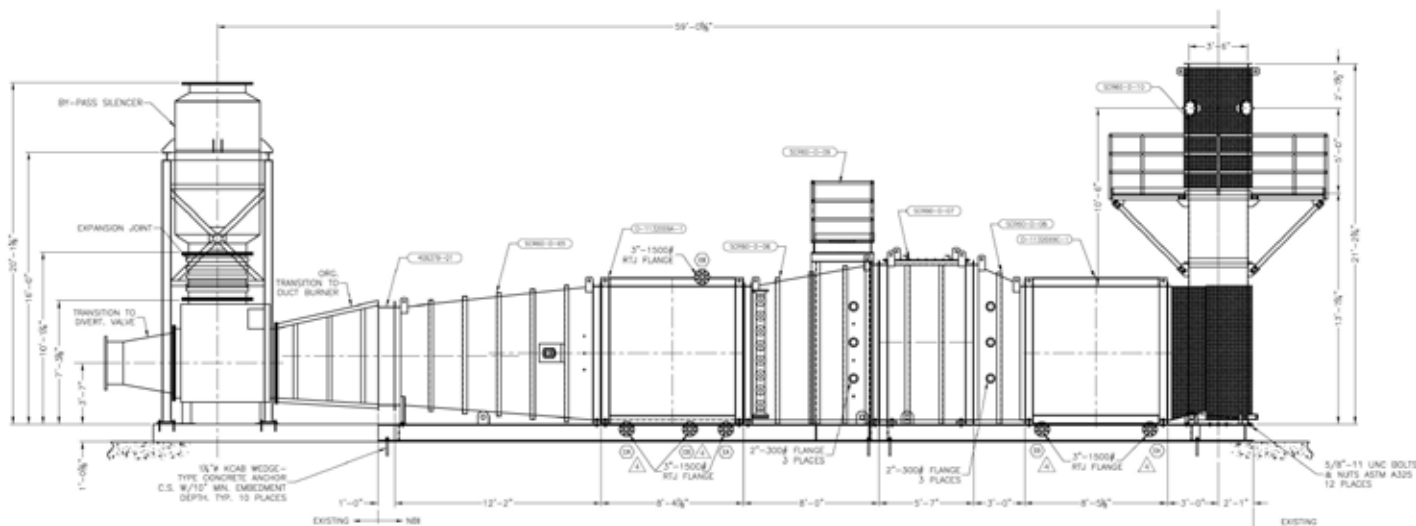

## From Conception to Design...

Nationwide Environmental Solutions delivers the *CataStak-GT* Selective Catalytic Reduction (SCR) System designed for low cost operation and maximum emission reductions. Whether it's for a complete system or a simple retrofit, the *CataStak-GT* SCR system includes all critical components to ensure reliable start-up, control and shutdown.

Through continuous innovation, and a proven track record of over 60 successful NO<sub>x</sub> reduction installations, the *CataStak-GT* SCR System is the industry's choice for the elimination of NO<sub>x</sub> by as much as 95% for gas turbine applications starting at 0.5 MW.

In addition to dependable low NO<sub>x</sub> performance, the SCR System also provides ease of maintenance, efficient operations and customized ammonia delivery system options (anhydrous, aqueous or ammonia from urea). Best of all, you can be assured that your equipment will continue to perform reliably with Nationwide Environmental Solution's 3-year catalyst guarantee.

Contact Nationwide today and ask us how you can easily reduce your NO<sub>x</sub> emissions up to 99%, while increasing your bottom line. Call today Nationwide today or email [info@catastak.com](mailto:info@catastak.com).
