

# Low NOx Boilers

## Rentals

## Sales - New & Reconditioned

## Low NOx Boilers

Nationwide Boiler now offers a wide range of boilers for rent, lease and sale that meet or exceed the low NOx specifications of most Air Quality Management Districts and other regulatory agencies in North America. The CataStak™, a selective catalytic reduction system, is also available for users requiring < 5 ppm NOx emissions. Boilers of many different capacities are available for immediate delivery and permits have been obtained on most units.

Performance specifications and reliable test reports are available on all boilers offered by Nationwide Boiler. This assures that you will receive exactly what you need. No more and no less.

Nationwide Boiler rents, leases and sells new and reconditioned boilers throughout North America. Our goal is to provide the very best service and quality available in the boiler industry.
