

**FOR IMMEDIATE RELEASE****NEW VICE PRESIDENT OF ENVIRONMENTAL SOLUTIONS ANNOUNCED AT  
NATIONWIDE BOILER INC.**

Fremont, CA, June 4, 2008...Nationwide Boiler Inc. announced the appointment of Robert Remkes to the position of Vice President, Environmental Solutions, based in Kingwood, TX. This new position is responsible for the sales and marketing of Nationwide Boiler's CataStak™, a selective catalytic reduction (SCR) system, utilizing CRI Catalyst Company's low temperature catalyst technology, proven to reduce NOx emissions to less than 5 ppm. Mr. Remkes will focus on strategic business development in Texas and other regions facing mandated air emission regulations, in addition to serving companies with goals of energy savings and fuel reductions.

Robert Remkes joins Nationwide Boiler with over thirteen years of sales management experience, selling power apparatus for Toshiba International Company and SCR catalyst technology for CRI Catalyst Company, serving industrial and cogeneration power users.

"Throughout our five year relationship with Robert he has gained our confidence as the catalyst expert in his field. In addition to being the primary liaison between Nationwide Boiler and CRI, he has been instrumental in providing us with strategic networking and new business opportunities throughout the United States. Robert is a valuable addition to our team and we look forward to positive growth and new market sales opportunities," explains Larry Day, Nationwide Boiler's Executive Vice President.

As well as an extensive sales background, Robert plays an integral role as a member of the Ammonium Nitrate / Nitric Acid Producers Study Group (ANPSG), an international industry organization of manufactures of ammonium nitrate and nitric acid. He is also Co-Chairperson for American Boiler Manufacturer's Associations' (ABMA) Environmental Affairs & Services Group. Robert obtained a Bachelor of Science degree in Mechanical Engineering from the University of Houston and currently resides in Houston where he umpires college baseball, practices golf and spends quality time outdoors with his wife and daughter.

Nationwide Boiler provides engineering, sales and service offices throughout the U.S. and has grown to a position of leadership recognized throughout the industry. The company offers a complete line of Low NOx boilers, mobile rental units, CataStak™ SCR systems, EconoStak™ economizers, environmental and efficiency controls, and boiler related equipment for sale, rental, short- term, seasonal, emergency use, and turnkey steam plant projects. Nationwide Boiler currently has more successful 5 PPM NOx retrofit/installations on package boilers than any other manufacturer.

Nationwide Boiler's corporate offices are located at 42400 Christy Street, Fremont, CA 94538; phone (800) 227-1966 or (510) 490-7100; fax (510) 490-0571; [www.nationwideboiler.com](http://www.nationwideboiler.com).
